Pro:Centric V

Simple and Easy Hotel TV management solution at lower total cost of ownership! With Pro:Centric solution-enabled TVs, multiple TVs and its contents can be remotely managed and updated via a server and a web-based editor while providing essential hotel information and messages from the hotel.

Pro:Centric Application

The easiest and most conveninent way to manage hotel TVs at the lowest cost. Pro:Centric Server and its easy editor clears out hotelier's main concerns about management and maintenance at lower cost along with LG Pro:Centric TV.

Pro:Idiom

The Pro:Idiom's advanced security unlocks access to premium content availability to help assure rapid, broad deployment of HDTV and other high value digital contents. With the leading DRM solution, you can eliminate the possibility of customers tampering with or removing needed components.

EzManager

EzManager makes installation quicker and easier with auto configuration function in LG Hotel TV. When power on for the first time during installation, EzManager guides the installer to set up TVs with few sequences of simple steps to follow without having to do set all functions in the menu.

Front LED Clock

The integrated LED clock has an array of alarm functions that are useful for guests, yet introduces cost savings for hoteliers- no need to supply a separate alarm clock.

Lock Mode

Lock Mode can make TV to be blocked from external input signals for illegal communication in such areas; Prison, Mental hospital and any applicable public spaces.
